

Request to Subscribe to the Statistical Accounts of Scotland Service

TERMS OF USE

The Statistical Accounts of Scotland Online Service is provided by EDINA. The design of the interface and database are property of EDINA. Copyright in page images belongs jointly to the Universities of Glasgow and Edinburgh.

Subscribers to the service may print or download, in full, the page images from up to 10 parishes for use in teaching, research or personal educational development. These page images may not be republished in full in any format including, inter alia, on the world-wide-web, in print or on CD-ROM. A single page image from a parish may be republished on condition that copyright is properly acknowledged (in the form 'Images from Statistical Accounts Online Service © University of Glasgow and University of Edinburgh') and a link is provided alongside to the front page of the Statistical Accounts Online Service (in the form 'The Statistical Accounts of Scotland is available online at <http://edina.ac.uk/stat-acc-scot/>').

Use of images for consultancy or for services leading to their commercial exploitation is prohibited without the explicit permission of the Copyright holders. A request for such permission should be addressed to EDINA in the first instance.

SUB-LICENCE DATA PROTECTION ACT STATEMENT

EDINA is a JISC National Data Centre.

EDINA is subject to and complies with the requirements of the Data Protection Act 1998. EDINA will use the information provided on this Sub-Licence Agreement form for:

- Administration of your subscription to this online resource
- Sending you EDINA service information
- Advising you about forthcoming training or other events

Site representative email will be added to a service-specific mailing list and a JISCmail list for all EDINA site representatives.

Contact details of site representatives are made available ONLY to members of your institution or organisation as necessary.

NOTE: any changes to these contact details must be notified to the EDINA helpdesk - edina@ed.ac.uk
